6. Opening of Bids

Bids shall be opened in accordance with Board policy.

7. Awarding of Contracts

- a. Design-Bid-Build Method - The contract shall be awarded to the lowest responsible and qualified bidder, except that the Board reserves the right to accept or reject any or all bids presented or to accept in part or as a whole any bid advantageous to the Board. The low bidder shall be determined solely on the basis of the base bid and specified alternates as accepted by the Board. However, should all contractors in any phase of the work submit the same substitution in the same manner, this substitution will be considered to be a specified alternate in awarding of the contract to the lowest bidder. Regulations concerning low bidder shall be made a part of the instructions to bidders in all specifications.
- b. Negotiated or Design-Build Method – In the event that a building project is engaged utilizing a negotiated or design-build method, the administrative staff shall pre-qualify firms determined to be most capable and present these firms to the Board for interview and selection using a process similar to that described in Rule 7321 for hiring architects. When either of these methods are selected, the bidding policies described in item 3 are waived in the selection of subcontractors to the general contractor. It is implicit within these methods that the general contractor or construction manager may use the most appropriate means of obtaining the best overall price and value for the District.
